

TROSEK

**ENGINEERING & TECHNICAL
SERVICES LLC**

Company Profile

ABOUT US

TROSEK consists of a group of engineers who have acquired extensive field experience in Oil & Gas industry for the past 15 years. Having deep understanding of Engineering Virtual world and implementation of it in Real Engineering Fields stands us apart from traditional companies.

Our team consists of individuals who have vast experience in Electro-Mechanical area in Oil and Gas industry i.e : Design, Hydraulics, Instrumentation, Refurbishments, Process etc.

DRILLING

Complete refurb and servicing of Drilling equipment's used on Rig Site i.e : Iron Roughnecks, Catwalks, Drawworks, TDS and Offline Activity Cranes
Availability of state of the art workshop facility for all in-door works

Team Years of Experience: 15 Years

REFINERIES

TROSEK having exclusivity of MENA region from a US prestigious company, we provide solutions to Process Industry i.e : Desalters, Precipitators, Dehydrators, Heat Treaters and Electrostatic Solutions

Team Years of Experience: 40 Years

ELECTRO-MECHANICAL

TROSEK partner gives leading rewinding and workshop facilities i.e : AC/DC motors, pumps, generator, rotating parts transformer, compressor rebuilding and stator rewinding and balancing

Team Years of Experience: Since 1974

OIL & GAS DRILLING SECTOR

With more than decade experience in Oil Fields as Field Service Engineers, our team have extensive experience in almost all drilling equipment's.

We provide On/Off field services of all drilling equipment's.

Few as shown:-

We assist our clients with any type of certification that they require be it Fabrication, Project Management, MPI, Pressure Testing, UT, API etc.

Good Quality 

Our workshop assists in carrying out projects from start to FAT as per OEM standards

Catwalks

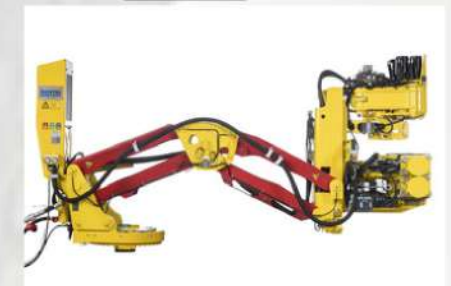

Choke & Kill Manifolds

Offline Cranes

TDS

Roughnecks

Mud Pumps

P-Quip

ELECTROSTATIC SOLUTIONS / DESALTERS

TROSEK having exclusive partnership with a US prestigious company of Desalters in MENA region, we provide quality products and services to our clients.

Our services include New Desalters, Retrofit Desalters, Upgrades, Better Replacement Parts, Field Service, Process Optimization, Inspection and Training.

- Desalters / Precipitators
- Dehydrators / Heater Treaters
- Electrostatic Solutions.

Consumables

Transformers, Grids,
Bushings, Sensors etc

Products

Complete Units &
Voltage Controllers

Professional

Field Services including Inspections,
Optimization and Training

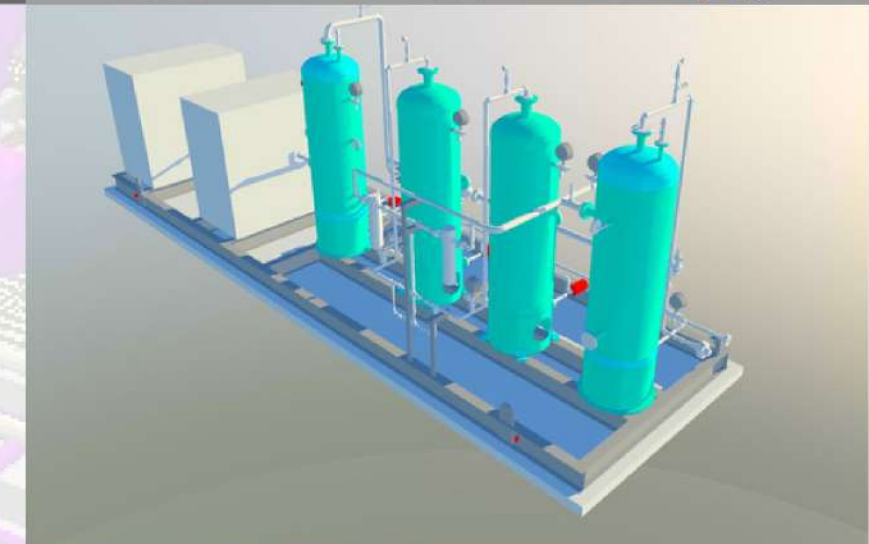

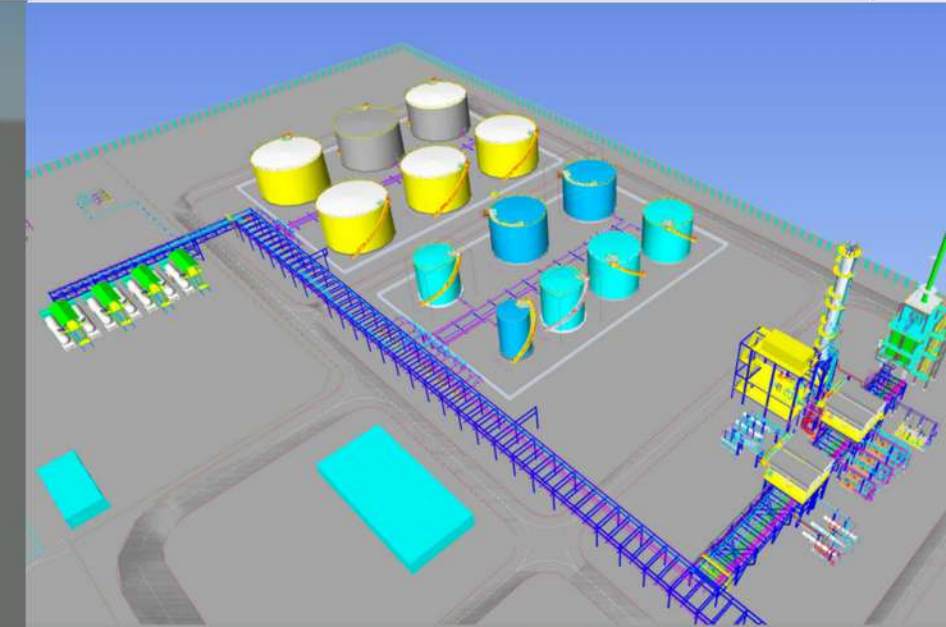

ENGINEERING & DESIGN OF OIL AND GAS FACILITIES

We specialize in the design of modular packages including :

- Separators
- Glycol Dehydration Packages
- Amine Treatment Units
- Water Bath Heaters
- Chemical Injection and Manifold Packages

We have experienced team of professionals to perform Process, Mechanical, Piping, E&I, Civil and Structural Design. We have provided detailed design and engineering for Vacuum Distillation Unit (VDU), glycol dehydration, separator skids and manifold packages for its client in the past.

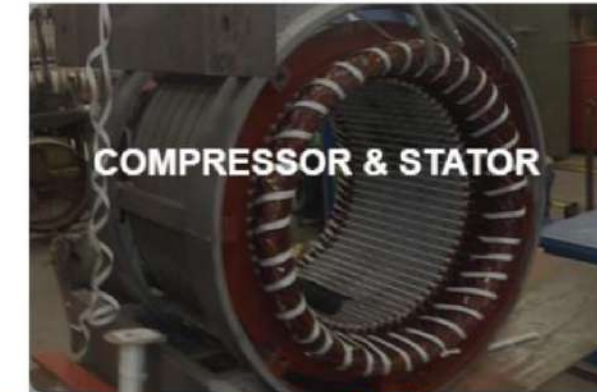

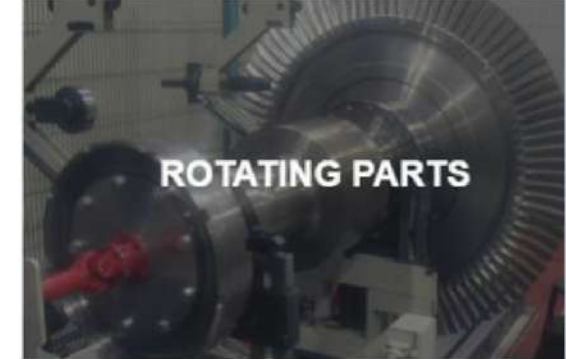

ELECTRO-MECHANICAL SERVICES

Our partners are one of the leading rewinding and repairing workshop in Abu Dhabi since 1974 with proven track record and as an ISO 9001:2015 and ISO 14001:2015 certified Company.

Fully equipped industrial services company, We offer a full range of products and services tailored to increase productivity & reliability. Our values of quality and service are reflected in the solutions we provide:

- Rewinding repairing of AC/DC electric motors, pumps, welding machines, generator, rotating parts transformer, compressor rebuilding and stator rewinding
- We are also undertaking dynamic balancing for rotor, blowers, pulley, and impeller etc

We Specialize in

OUR MISSION

To be recognized as an exceptional talent provider in Oil & Gas Industry, who are committed to prompt satisfaction of our customers and the creation of sustainable value for our stakeholders. Customer satisfaction must govern our way of thinking at all levels and across all aspects of the company.
